

LightGage

Capabilities Statement

Core Competencies – Optics, Lasers, Imaging

- Lens Design & Assembly Manufacturing
- Optical System Engineering & Manufacturing
- Laser Design, Engineering & Manufacturing
- Digital Holography Systems
- Dynamic Active 3D Imaging Systems
- Interferometers and Metrology Systems
- Industrial Laser Systems
- Low-Cost Gimbals (AZ-EL)
- DOW, DOE, NASA, NIH Optical Systems

US Patents Assigned to LightGage

- 6690690** Tunable laser system having an adjustable external cavity
- 6741361** Multi-stage data processing for frequency scanning interferometer
- 6882433** Interferometer system of compact configuration
- 7057742** Frequency-scanning interferometer with non-specular reference surface
- 7130059** Common-path frequency-scanning interferometer

LightGage founders hold a combined total of 45 US patents, and an additional number of foreign patents, in the fields of optics, lasers, electronics, and mechanics.

Company Data

NY Corp: LightGage, Inc.
Founded: 2001
EIN: 16-1613949
CAGE Code: 1XA46
SAM UEI: T56JARR2JMX1
SIC Code: 3827

NAICS Codes

- 334511** Search, Detection, Navigation, Guidance
334513 Instruments and Products
334516 Analytical Laboratory Instruments
334519 Other Measuring and Controlling Device
541330 Engineering Services
541715 R&D in the Physical, Engineering, and Life Sciences
541990 Professional, Scientific, and Technical Services
